

(Abstract)

M.A Economics programme (CBCSS) w.e.f 2020 admission in the University Department - Scheme and Syllabus of Two additional Elective Course - implemented w.e.f 2021 admission - Orders issued.

ACADEMIC C SECTION

Acad/C1/10376/2019

Dated: 30.10.2021

- Read:-1.U.O.No.Acad/C1/10376/2019 dated 15.01.2021
2. Minutes of the meeting of the Department Council, Dept. of Economics, held on 13.09.2021
3. Letter from Head, Department of Economics, Dr. Janaki Ammal Campus, Thalassery Dated 13.09.2021

ORDER

1. As per paper read(1) above, revised Scheme, Syllabus and Model Question papers of the M A Economics Programme (CBCSS) was implemented w.e.f 2020 admission, in the Department of Economics of the University.

2.Later,the Department Council, Department of Economics, Dr. Janaki Ammal Campus, Palayad, Thalassery as per paper read (2), resolved to approve the following two additional Elective Courses for the M A Economics programme (CBCSS) w.e.f 2021 admission onwards.

| Sl. No. | Course Code | Course Title | Credit | Instructional Hours/week |
|---------|-------------|--|--------|--------------------------|
| 1 | MAECO03E12 | Databases on the Indian Economy and Basic Computational Techniques for Data Analysis | 4 | 4 |
| 2 | MAECO04E15 | Behavioural Economics | 4 | 4 |

3.Subsequently,the Head, Department of Economics, Dept.of Economics, Dr. Janaki Ammal Campus,Palayad, Thalassery, vide paper read (3) submitted the Scheme and Syllabus of the above mentioned additional Elective Courses, duly scrutinised by the Subject Experts, for approval and implementation w.e.f 2021 admission.

4.The Vice Chancellor, after considering the matter in detail, and in exercise of the powers of the Academic Council conferred under section 11(I) of KU Act 1996 accorded sanction to implement two additional Elective Courses-"Databases on the Indian Economy and Basic Computational Techniques for Data Analysis" & "Behavioural Economics" for the M A Economics programme at the Department of Economics, Dr.Janaki Ammal Campus, Palayad, Thalassery w.e.f 2021 admission, as detailed in para (2) above.

5.The U.O read (1) above, stands modified to this extent.

6.The Scheme and Syllabus of additional Elective Courses for the M A Economics Programme (CBCSS), applicable w.e.f 2021 admission, in the University Department, are uploaded in the University Website.(www.kannuruniversity.ac.in).

Orders are issued accordingly.

Databases on the Indian Economy and Basic Computational Techniques for Data Analysis

Elective Course

MAECO03E12

Course Objectives:

The course intends to provide the students the benefits of secondary data and introduces the sources of socio-economic data in India and the world. The various socio-economic databases will be introduced along with hands on training on how to derive the data and do basic data analysis using Gretl, R, Ms Excel and Google Spreadsheet software.

Course Outcomes:

To develop students who are well versed in handling secondary sources of socio-economic data. The course also aims to produce trained professionals who can effortlessly do data analysis using open source statistical software. In essence, the major outcome of the course is to develop Economics students fit for modern data analytical jobs.

Module 1: Introduction to secondary data - Databases on the Indian Economy – National Income – Public Finance – Money, Banking and Stock Markets - BoP & External Sector - RBI databases – Government of India, Ministry of Statistics and Programme Implementation Reports – - Economic Survey – Use of Administrative Data - Cross country databases - World Bank Indicators - UN data sets – Penn World Tables Weather and Spatial Data-population census data.

Behavioural Economics

Elective Course

MAECO04E15

Course Objectives

This course emphasis on theoretical and empirical applications of behavioural concepts like (i) preferences (time and risk preferences, reference dependence, and social preferences), (ii) beliefs and learning (overconfidence, projection bias, and attribution bias), and (iii) decision-making (cognition, attention, framing, and persuasion), as well as (iv) market reactions to such deviations. Applications of behavioural economics will cover a wide range of fields, including labour and public economics, industrial organization, health economics, finance, and development economics.

The main course objectives are as follows:

- 1) To equip students with Basic and advanced knowledge in theories of Behavioural Economics
- 2) To familiarise the students with various aspects of applied Behavioural Economics
- 3) To make the students capable of addressing and solving the issues in the society and the economy by acquiring greater insight in the behaviour of various economic agents and institutions

Course Outcome

- 1) Students will get exposure to the frontier of empirical research in Behavioural Economics
- 2) Students will learn how to critically assess a rapidly evolving literature and how to develop and present a research proposal, as well as designing novel ideas related to Research in Behavioural Economics
- 3) Learn how to test (Behavioural) economic theory using field experiments and non-experimental data
- 4) Skill development in students catering to the needs of the industry and policy makers

Course Content

Module 1: Introduction

Behavioural economics - History and evolution- Relation with other disciplines- Objectives, and scope- themes and methodology of behavioural economics- concepts- Motivation and personality -Perception, learning and attitude -Limited information processing -Economic expectation, emotions and wellbeing

Essential Reading
