#### **Course Description**

The Fundamentals of Communication course provides an in-depth understanding of the essential principles and practices of communication. It covers the theoretical frameworks and practical skills necessary for effective interpersonal, group, and public communication. Students will explore topics such as verbal and non-verbal communication, active listening, public speaking, and intercultural communication. The course aims to enhance students' ability to convey ideas clearly and confidently, fostering better personal and professional relationships. Through lectures, discussions, and practical exercises, students will develop a solid foundation in communication that is applicable across various contexts and disciplines.

#### **Course Pre-requisite**

- 1. While an introductory course will cover the fundamentals, having some familiarity with basic communication concepts can be beneficial.
- 2. Communication studies involve analyzing various forms of communication critically. Therefore, having strong critical thinking skills is essential.

# **Course Description**

This course provides an introduction to the fundamental concepts and components of multimedia, including text, images, audio, video, and animation. Students will gain hands-on experience with industry-standard software tools and develop practical skills in creating and integrating multimedia projects for various applications.

## **Course Prerequisite**

- 1. Digital Literacy: Familiarity with basic computer operations, file management, and internet usage.
- 2. Graphic Design Basics: Understanding of fundamental design principles, such as layout, typography, colour theory, and image editing.
- 3. Media Communication: Knowledge of communication theories and concepts applicable to various media platforms.
- 4. Audio visual Production: Experience or coursework in creating and editing audio and video content.
- 5. Multimedia Tools: Proficiency in using multimedia software and tools for creating interactive media projects.
- 6. Critical Thinking: Ability to analyze and evaluate multimedia content critically, considering its impact and ethical implications.

# **Course Description**

The Print and Online Design course offers students an in-depth exploration of design principles and practices as applied to both traditional print media and contemporary online platforms. Through a combination of theoretical study and practical exercises, students will learn to assess, analyze, and critique various design elements such as typography, layout, colour, and imagery in the context of print and digital communication. Emphasis will be placed on developing creative skills and technical proficiency using industry-standard software to produce effective and visually engaging designs suitable for diverse audiences and purposes. Additionally, students will gain hands-on experience in applying design concepts across different media formats, with a focus on user experience and accessibility considerations in the digital realm.

# **Course Prerequisite**

- 1. Competence in using digital tools and resources.
- 2. An introductory understanding of design principles and elements.

**Employability for the Course:** Graduates of the Animation and Motion Graphics course will find employment opportunities as motion graphics designers, 3D animators, and visual effects artists in industries like film, television, advertising, and gaming. Their skills in creating engaging animations, designing visual effects, and using industry-standard software make them valuable assets in multimedia content creation and digital media production. Additionally, they can explore freelance opportunities or work as part of creative teams in animation studios and design agencies.

### Model Question Paper Animation and Motion Graphics

Credits: 4 Maximum Time: 2 hours Maximum Marks: 70

### **Section A**

[Answer any **EIGHT**. Each question carries 3 marks]

8X3 = 24

- 1. Define animation.
- 2. Explain the concept of motion graphics.
- 3. What are key frames in animation?
- 4. Describe the purpose of nodes in animation.
- 5. Discuss the use of green and blue screens in visual compositing.
- 6. What is matte painting used for in motion graphics?
- 7. Define 3D cameras in the context of motion graphics.
- 8. Explain the role of After Effects in animation and motion graphics.
- 9. Discuss the importance of masking techniques in After Effects.
- 10. Explain the concept of motion tracking in After Effects.

#### **Section B**

[Answer any SIX. Each question carries 6 marks]

6X6 = 36

- 11. Discuss the history and evolution of motion graphics.
- 12. Explain the principles and techniques involved in animation.
- 13. Describe the visual compositing techniques used in motion graphics.
- 14. Discuss the fundamentals of Adobe After Effects and its interface.
- 15. Explain the different camera movements and animation techniques in After Effects.
- 16. Discuss the use of masking and motion tracking in After Effects.
- 17. Explain the concept of keyframe assistant and animation present in After Effects.
- 18. Discuss the role of third-party plug-ins for After Effects.

#### **Section C**

[Answer any ONE. Each question carries 10 marks]

1x10=10

- 19. Write an essay on advanced techniques in After Effects, including transformation, 3D layer manipulation, and advanced compositing methods.
- 20. Discuss the impact of motion graphics in modern multimedia content creation and its future trends.

### **Course Description**

This course offers an in-depth exploration of sound design, focusing on the principles and techniques used in creating and manipulating audio for various media. Students will learn the art and science of sound design, including recording, editing, and mixing sound effects, dialogue, and music. Through practical projects and theoretical studies, they will gain hands-on experience with industry-standard software and equipment. The course also covers the historical and theoretical context of sound design, enabling students to understand its role in enhancing narrative and emotional impact. By the end of the course, students will be able to produce professional-quality audio content and have a comprehensive understanding of the sound design process, preparing them for careers in film, television, video games, and live performance.

### **Course Prerequisite**

- 1. Basic Audio Knowledge: Understanding of fundamental audio concepts, such as sound waves, frequency, and amplitude.
- 2. Music or Sound Production Basics: Experience or coursework in creating, recording, and editing audio content.
- 3. Software Proficiency: Proficiency in using audio editing and production software such as Pro-Tools, Logic Pro, or Audacity.
- 4. Critical Listening Skills: Ability to analyze and evaluate audio content critically, considering its quality and impact.
- 5. Technical Aptitude: Basic understanding of audio equipment and its usage, including microphones, mixers, and recording devices.

### **Course Description**

Film/ Cinema both represent and integrate with society. It is part of the culture, and it enriches it. It affects society, and vice versa. As a result, media students need to be aware of what's going on in the film industry. The goal of this course is to provide students with the tools necessary to analyze a film's cultural significance while having a thorough understanding of the key movements.

Film studies offer a wide range of frameworks to interpret cinema. The students are provided with the necessary devices for understanding how meaning is created, and how viewers understand the meaning and engage with that meaning.

### **Course Prerequisite**

Semester	Course Type	Course Level	Course Code	Credits	Total Hours
VI	Internship	300-399	KU6INTJOUR321	2	60

#### **INTERNSHIP**

- All students should undergo 2-credit internship by the end of their sixth semester, in a media organization or in a setting that can enhance their employability skills and offer hands-on experience in the media arena.
- Internship is to be carried out under the guidance of a Faculty in the department, with the required follow-up with the internship institution supervisor, seeking regular reports, and making timely interventions.
- Internship can be in the domains of print, broadcast and new media or in advertising and public relations and film domains.
- There should be a minimum 60 hours of engagement for internship.
- Summer vacations or other holiday breaks are to be used for completing internship.
- Guided visit as a batch to a mainstream newspaper/ television news channel/production house/media organization is mandatory as part of internship. A brief report of the study tour focusing on the input and insights received and presenting a plan of action for career preparation must be submitted individually, for assessment.
- There should be a logbook for internship for the student to make dated, regular and detailed entries. into. The logbook should carry the record of the progress of internship specifying the tasks performed on a day-to-day basis. The internship supervisor should periodically examine and countersign the logbook. The logbook, with detailed report of must be submitted at the end of the Internship.
- The institution where the internship is to be carried out should be approved by the Department Council of the college where the student has enrolled for the UG programme.

#### **EVALUATION OF INTERNSHIP**

- The evaluation of Internship shall be done internally through continuous assessment mode by a committee internally constituted by the Department Council of the college where the student has enrolled for the UG Honours programme.
- The credits and marks for the Internship will be awarded only at the end of semester 6.
- The scheme of continuous evaluation and the end-semester viva-voce examination based on the submitted report shall be as given below:

### **Course Description**

The course will equip students with comprehensive theoretical knowledge on media and communication research process and procedures, tools and tests, inference and interpretation. This course will also provide the required practical exposure and experience to apply research designs in all major domains: print, broadcast and new media, advertising, public relations and film industry.

#### **Course Prerequisite**

Students should have intermediate level of knowledge on the unique strengths and the inherent limitations of print, broadcast and new media, advertising, public relations and film industry, to delve into the intricacies of communication research.

# KU8RPHJOUR415 RESEARCH PROJECT

Semester	Course Type	Course Level	Course Code	Credits	Total Hours
VIII	Research Project in Major Discipline	400-499	KU8RPHJOUR415	12	360

#### PROJECT IN HONOURS PROGRAMME

- In BJMC Honours programme, the student has the option to do a Project of 12-credits instead of three Core Courses in Major in semester 8.
- The Project can be done in the same institution or in any other Higher Education Institution (HEI)/ Research Centre.
- A faculty member of the institution where the student is doing the Project should be the supervisor of the Project.
- In BJMC Honours Programme, the project can done in any domains of print, broadcast or new media, or in any of advertising, public relations and film domains, planned, executed and documented systematically.

#### PROJECT IN HONOURS WITH RESEARCH PROGRAMME

- Students who secure 75% marks and above (equivalently, CGPA 7.5 and above) cumulatively in the first six semesters are eligible to get selected to Honours with Research stream in the fourth year.
- A relaxation of 5% in marks (equivalently, a relaxation of 0.5 grade in CGPA) is allowed for those belonging to SC/ ST/ OBC (non-creamy layer)/ Differently Abled/ Economically Weaker Section (EWS)/ other categories of candidates as per the decision of the UGC from time to time.
- In Honours with Research programme, the student has to do a mandatory Research Project of 12-credits instead of three Core Courses in Major in semester 8.

A faculty member with a Ph.D. degree can supervise the research project of the students
who have enrolled for Honours with Research. One such faculty member can supervise a
maximum of five students in Honours with Research programme.

# **GUIDELINES**

- 1. Project can be in journalism and multimedia or in allied disciplines.
- 2. Project should be done individually.
- 3. There should be a minimum 240 hours of engagement from the student in the Project work in Honours programme.
- 4. There should be minimum 13 hrs./week of engagement (the hours corresponding to the three core courses in Major in semester 8) from the teacher in the guidance of the Project in Honours programme and Honours with Research programme.
- 5. The project proposal, institution at which the project is being carried out, and the project supervisor should be prior approved by the Department Council of the college where the student has enrolled for the UG Honours programme.
- 6. During the Project the students should make regular and detailed entries into a personal logbook through the period of investigation. The logbook will be a record of the progress of the Project and the time spent on the work. The Project supervisor should periodically examine and countersign the logbook.
- 7. All entries should be dated. The logbook and the typed report must be submitted at the end of the Project. A copy of the report should be kept for reference at the department. A soft copy of the report too should be submitted, to be sent to the external examiner in advance.
- 8. The project report shall have an undertaking from the student and a certificate from the research supervisor for originality of the work, stating that there is no plagiarism, and that the work has not been submitted for the award of any other degree/ diploma in the same institution or any other institution.
- 9. It is desirable, but not mandatory, to publish the results of the Project in a peer reviewed journal.

# STEPS IN RESEARCH PROJECT

The steps to be followed in research projects are:

- Identifying the research problem, getting formal approval, completing procedural requirements and formalities
- Literature review; identification of research gap, discussions, participation in seminars and conference, field visits etc.
- Designing a time-bound action plan for the research work and its approval from the faculty supervisor
- Finalizing the research problem, variables, concepts, title, objectives, population, samples, hypothesis or research questions, theoretical framework, methodology, source of data, data collection methods, data processing and analysis plan, chapterization and time line.
- Presentation of synopsis before the research approval committee of the department; modifications and finalization
- Developing the tool for data collection, pre-test and modifications
- Selection of sample
- Collection of data and information- quantitative, qualitative or mixed method
- Data processing and data analysis, testing hypothesis, interpretation, findings, suggestions
- Preparation of project report with references and all supporting documents like tools, photographs, newspaper cuttings, videos, etc.
- Submission of the draft to the organization supervisor/Department Supervisor
- Finalizing the draft research project report with suggestions/modifications/observations as proposed by the Supervisor
- Printing and hard binding of the research project report; certification should be authenticated by the Research Supervisors and the Head of the Department.
- Submission of the final research project report to the department
- Prepare a research paper based on your study and get it published in a UGC-CARE
  journal or do a national or international seminar/conference presentation. Submit the
  certificate copy or journal article copy to the department.

• Public presentation of the Research Project followed by the viva voce conducted by the university

#### **EVALUATION OF PROJECT**

- The evaluation of Project will be conducted at the end of the eighth semester through both internal and external modes.
- The Project in Honours programme as well as that in Honours with Research programme will be evaluated for 300 marks. Out of this, 90 marks are from internal evaluation and 210 marks, from external evaluation.
- The internal evaluation of the Project work shall be done through continuous assessment mode by a committee internally constituted by the Department Council of the college where the student has enrolled for the UG Honours programme. 30% of the weightage shall be given through this mode. 70% of the weightage shall be awarded by the external examiner appointed by the University.

The **scheme of continuous evaluation** and the **end-semester viva-voce** of the Research Project shall be as given below:

## **Course Description**

The Print and Online Design course offers students an in-depth exploration of design principles and practices as applied to both traditional print media and contemporary online platforms. Through a combination of theoretical study and practical exercises, students will learn to assess, analyze, and critique various design elements such as typography, layout, colour, and imagery in the context of print and digital communication. Emphasis will be placed on developing creative skills and technical proficiency using industry-standard software to produce effective and visually engaging designs suitable for diverse audiences and purposes. Additionally, students will gain hands-on experience in applying design concepts across different media formats, with a focus on user experience and accessibility considerations in the digital realm.

## **Course Prerequisite**

- 1. Competence in using digital tools and resources.
- 2. An introductory understanding of design principles and elements.

This course focuses thoroughly on public relations and explains how it may be applied in practice. It emphasizes strategic engagement with varied audiences, the formation of long-term and significant organizational partnerships, and reputation management. Public relations is critical in managing an organization's interactions with key internal and international stakeholders. The course aims to bridge the gap between academics and practitioners in public relations by educating students on global opportunities in government, transnational businesses, non-governmental organizations, and international agencies.

### **Course Prerequisite**

- 1. Completion of introductory journalism courses or equivalent experience
- 2. Skills for crafting and disseminating messages, often developed through studies in communications, journalism, or English.
