# **INTRODUCTION**

#### Kannur University - Four-Year Undergraduate Programme: Backdrop and Context

The implementation of the Four-Year Undergraduate Programme (FYUGP) has been driven by the pressing need to address contemporary challenges ensuring responsive changes to the evolving needs of students, industry, and society at large. Recognizing the curriculum as the cornerstone of any education system, it requires regular refinement to align with evolving socioeconomic factors. Higher education must provide students with practical and technical skills relevant to their fields of interest, necessitating the development of a job-oriented curriculum. Despite significant increases in access and expansion of higher education over the years, concerns persist regarding the quality and relevance of educational outcomes, particularly in terms of employability skills. As the world becomes increasingly interconnected, our education system must evolve to instill 21st-century skills, enabling students not only to survive but to thrive in this dynamic environment. Moreover, there is a growing need for higher education institutions to embrace social responsibility and contributeto the development of a knowledge society capable of driving sustainable development through innovation. With the central objective of fostering a robust knowledge society to support a knowledge economy, the Government of Kerala has initiated steps to reform higher education. Accordingly, three commissions were established to suggest reforms in higher education policy, legal and regulatory mechanisms, and evaluation and examination systems. It is within this context that a comprehensive reform of the undergraduate curriculum has been proposed, leading to the restructuring of the Four-Year Undergraduate Programme.

# KANNUR UNIVERSITY VISION AND MISSION STATEMENTS

#### Vision

To establish a teaching, residential and affiliating University and to provide equitable and just access to quality higher education involving the generation, dissemination and a critical application of knowledge with special focus on the development of higher education in Kasargode and Kannur Revenue Districts and the Manandavady Taluk of Wayanad Revenue District.

#### **Mission**

- To produce and disseminate new knowledge and to find novel avenues for application of such knowledge.
- ➤ To adopt critical pedagogic practices which uphold scientific temper, the uncompromised spirit of enquiry and the right to dissent.
- To uphold democratic, multicultural, secular, environmental and gender sensitive values as the foundational principles of higher education and to cater to the modern notions of equity, social justice and merit in all educational endeavors.
- ➤ To affiliate colleges and other institutions of higher learning and to monitor academic, ethical, administrative and infrastructural standards in such institutions.
- ➤ To build stronger community networks based on the values and principles of higher education and to ensure the region's intellectual integration with national vision and international standards.
- ➤ To associate with the local self-governing bodies and other statutory as well as nongovernmental organizations for continuing education and also for building public awareness on important social, cultural and other policy issues.

# KANNUR UNIVERSITY FOUR-YEAR UNDER-GRADUATE PROGRAMME (KU-FYUGP)

#### **Program Outcomes (POs):**

Program Outcomes (POs) serve as a foundational framework defining the skills, knowledge, and attributes that students at Kannur University are expected to acquire upon completion of a specific academic program. Tailored to the unique goals of each program, POs articulate the overarching learning objectives that guide curriculum design and assessment. These outcomes encompass a diverse range of competencies, including critical thinking, problem-solving, effective communication, and discipline-specific expertise. POs play a crucial role in shaping educational experiences, ensuring alignment with academic standards and industry expectations. By articulating clear and measurable expectations, POs contribute to the continuous improvement of academic programs and provide a roadmap for students to develop into well-rounded, competent professionals within their chosen fields.

#### At the end of the graduate programme at Kannur University, a student would:

| Critical Thinking and Problem-Solving:  |
|---|
| Apply critical thinking skills to analyse information and develop effective problem-          |
| solving strategies for tackling complex challenges  |
| Effective Communication and Social Interaction:   |
| Proficiently express ideas and engage in collaborative practices, fostering effective         |
| interpersonal connections.  |
| Holistic Understanding:   |
| Demonstrate a multidisciplinary approach by integrating knowledge across                      |
| various domains for a comprehensive understanding of complex issues.                          |
| Citizenship and Leadership:   |
| Exhibit a sense of responsibility, actively contribute to the community, and showcase         |
| leadership qualities to shape a just and inclusive society                                    |
| Global Perspective:   |
| Develop a broad awareness of global issues and an understanding of diverse                    |
| perspectives, preparing for active participation in a globalized world                        |
| Ethics, Integrity and Environmental Sustainability:   |
| Uphold high ethical standards in academic and professional endeavors,                         |
| demonstrating integrity and ethical decision-making. Also acquire an                          |
| understanding of environmental issues and sustainable practices, promoting                    |
| responsibility towards ecological well-being.   |
| Lifelong Learning and Adaptability:   |
| Cultivate a commitment to continuous self-directed learning, adapting to evolving challenges, |
| and acquiring knowledge throughout life.  |
|   |

# **PROGRAMME SPECIFIC OUTCOMES (PSO):**

#### PROGRAMME SPECIFIC OUTCOMES FOR FOUR-YEAR UNDER-GRADUATE PROGRAMME IN SOCIAL SCIENCE - ECONOMICS AT KANNUR UNIVERSITY

The curriculum and syllabi of the FYUGP Social Science-Economics Program have been crafted to prepare students to apply economic theories and concepts to current social issues. The program emphasizes developing strong theoretical and quantitative skills necessary for analysing real-world economic problems. It offers specialized courses that enable students to delve deeper into their areas of interest. The program aims to equip students to pursue diverse career opportunities in economics, social sciences, commerce, entrepreneurship, as well as rural and urban development.

#### Specific outcomes of the programme are summarized below:

| PSO1 | Critical Economic Analysis: Apply critical thinking skills to evaluate economic theories, policies, and data, developing effective problem-solving strategies for addressing complex economic challenges and fostering evidence-based decision-making. The program fosters intellectual skills in students to comprehend and conceptualize social and economic problems, theories, and models. |
|------|--|
| PSO2 | Effective Communication: Proficiently express economic ideas and theories, engaging in collaborative practices to effectively communicate economic concepts and findings, fostering constructive dialogue and promoting understanding among diverse stakeholders.  |
| PSO3 | Holistic Understanding of Social and Economic Dynamics: Demonstrate a multidisciplinary approach by integrating knowledge from economics, sociology, political science, and other relevant fields to gain a comprehensive understanding of the interconnectedness of social and economic issues, enabling informed analysis and policy formulation.  |
| PSO4 | Citizenship and Leadership: Exhibit a sense of responsibility towards promoting social justice and inclusive economic growth, actively contributing to community development initiatives, and showcasing leadership qualities to advocate for policies that advance equity and well-being.   |
| PSO5 | Global Perspectives on Economic Development: Develop a broad awareness of global economic issues and an understanding of diverse perspectives, preparing for active participation in the global economy and contributing to the development of solutions that address global challenges such as poverty, inequality, and sustainability.   |
| PSO6 | Ethics, Integrity, and Sustainable Economic Practices:<br>Uphold high ethical standards in economic research, policy-making, and professional<br>endeavors, demonstrating integrity and ethical decision-making. Acquire an<br>understanding of environmental sustainability and promote responsible economic<br>practices that prioritize ecological well-being and social responsibility.    |
| PSO7 | Lifelong Learning and Adaptability in Economics: Cultivate a commitment to continuous self-directed learning in the field of economics, adapting to evolving economic challenges and acquiring knowledge throughout life to remain current with economic trends and contribute effectively to society's economic development and well-being.   |

### KU1DSCSSE101: INTRODUCTORY MICROECONOMICS

### **Course Description:**

This course sets foundation for studying the intermediate micro economics and advanced micro economics in the forthcoming semesters. The course enables the students to get grip in the microeconomic theory via making the conceptual foundations clear. The course starts with an introduction to microeconomic analysis exploring the basic concepts for better understanding of more advanced theories and moves on to concepts of demand and supply and provides foundations for consumer behaviour analysis at the intermediate level. Foundations of production, cost and revenue analysis are followed in the subsequent module and ends with concepts in factor market and welfare analysis. In brief the course widens the conceptual tool box of an undergraduate student of economics so as to better experience more advanced learning of microeconomics in the forthcoming semesters.

### **Course Prerequisite: NIL**

### **Course Outcomes:**

| CO No. | Expected Outcome  | Learning<br>Domains |
|--------|---|---------------------|
| 1      | Learn the foundational concepts in microeconomics like trade-offs<br>and opportunity cost, nominal and real prices and the so forth for<br>better theoretical understanding | R, U                |
| 2      | Understand the basic concepts of demand and supply for analysing market dynamics  | R, U                |
| 3      | Understand the basic concepts of production, cost and revenue for<br>learning the subject in the subsequent semesters   | R, U                |

| 4 | Learn the concepts for analysis factor markets and welfare related<br>concepts for better learning microeconomics at the intermediate<br>and advanced levels | R, U |
|---|--|------|
| 5 | Extend the foundational theoretical tool box of microeconomics for subsequent learning at the intermediate and advance levels                                | R, U |

\*Remember (R), Understand (U), Apply (A), Analyse (An), Evaluate (E), Create (C)

### **Course Description:**

This course provides a comprehensive overview of economic development theories and practices with a focus on developing countries, particularly India. It examines the meaning, measurement and determinants of economic development, then, explores the role of human resources in development. The course also introduces concepts of sustainable development, and analyses India's development experience from pre-independence to contemporary scenario.

### **Course Prerequisite: NIL**

### **Course Outcomes:**

At the end of the course, the student will be able to;

| CO No. | Expected Outcome   | Learning<br>Domains |
|--------|--|---------------------|
| 1      | Conceptualize economic development and differentiate it from economic growth.  | R, U                |
| 2      | Understand the determinants of economic growth and development<br>using theoretical frameworks and empirical evidence. | R, U                |
| 3      | Understand the role of human resources, including education, health, and gender in economic development                | R, U                |
| 4      | Understand the concept of sustainable development and its application in policy-making.                                | R, U                |

| 5 | Study India's development experience, including the successes, challenges and implications for future policy | R, U |  |

### **KU1DSCSSE104: ECONOMICS FOR BEGINNERS**

#### **Course Description:**

This course delves into foundational economic concepts and theories, focusing on Microeconomics, Macroeconomics, and Indian Economy. Students will be able to explore foundational theories of Microeconomics and Macroeconomics, and also get an outlook on the working of India's economy. The course integrates theoretical knowledge with practical applications, case studies, and real-world examples to enhance student's understanding of complex real world economic phenomena.

### **Course Prerequisite: NIL**

### **Course Outcomes:**

At the end of the course, the student will be able to;

| CO No. | Expected Outcome  | Learning<br>Domains |
|--------|---|---------------------|
| CO 1   | Understand the fundamental principles and concepts of economics, including microeconomics and macroeconomics.                     | R, U                |
| CO 2   | Understand economic systems, economic agents' roles and economic models and theories.   | R, U                |
| CO 3   | Comprehend microeconomic principles such as scarcity, opportunity cost, supply and demand and market structures.                  | R, U                |
| CO 4   | Understand consumer behaviour, producer behaviour, and the concepts of utility, budget constraints and profit maximization.       | U                   |
| CO 5   | Gain knowledge of macroeconomic principles like national income accounting, fiscal and monetary policies and economic indicators. | R, U                |

# **Course Description:**

This course is designed to provide multidisciplinary foundations of economics with understanding of economic principles and their relevance in daily life. This course offers a comprehensive exploration of fundamental economic concepts, aiming to equip learners with the necessary tools to navigate economic issues in their personal and professional spheres. From understanding price determination and inflation to exploring personal finance, global trade dynamics and social issues such as income inequality and poverty alleviation, students are expected to gain practical insights into economics. By the end of the course, participants will be able to develop basic understanding of economic phenomena, enabling them to make informed decisions and engage meaningfully with economic issues in their everyday life.

### **Course Prerequisite: NIL**

#### **Course Outcomes:**

| COs  | Expected Outcome   | Learning<br>Domains |

# **Course Description:**

This course offers an interdisciplinary approach to understanding economics. Students will gain insights into fundamental economic principles while exploring the latest trends in the Indian economy, public finance, and international economic developments. Furthermore, it addresses recent developments in India's economy, including government initiatives and contemporary issues. Through a blend of theoretical frameworks and practical case studies, this course prepares students with diverse academic backgrounds to excel in competitive examinations by enhancing their analytical and problem-solving skills.

# Course Prerequisite: Basic understanding about the economy

### **Course Outcomes:**

At the end of the course, the student will be able to;

| COs | Expected Outcome  | Learning<br>Domains |
|-----|---|---------------------|
| CO1 | Gain a comprehensive understanding of the fundamentals of economics                                 | R                   |
| CO2 | Develop analytical skills to analyze and interpret trends in the<br>Indian economy                  | U                   |

# **Course Description:**

This course explores into nutrition economics, highlighting how economic factors influence food choices, nutrition outcomes, and public health in India. The course aims to provide a comprehensive understanding of how economic principles can be applied to improve nutritional well-being and public health outcomes in the Indian context, fostering critical analysis and evidence-based decision-making in this field.

# **Course Prerequisite: NIL**

# **Course Outcomes:**

At the end of the course, the student will be able to;

| CO No. | Expected Outcome  | Learning<br>Domains |
|--------|---|---------------------|
| 1      | Understand the foundational principles of nutrition and their economic implications               | R                   |
| 2      | Analyse how economic factors influence food choices and nutrition outcomes                        | U                   |
| 3      | Evaluate the effectiveness of policies designed to enhance<br>nutrition and improve public health | R, U                |

| 4 | Apply economic tools and methodologies to address complex nutrition challenges                         | U, A |
|---|--|------|
| 5 | Develop evidence-based strategies aimed at improving nutrition<br>outcomes and promoting public health | R, A |

**Course Description:** This course provides students with a comprehensive understanding of demography's scope and significance; emphasizing its nexus with economic dynamics. It covers key demographic theories and their connection to key population measures like fertility, mortality, migration, and urbanization. Through quantitative analysis, students learn to articulate economic perspectives on demographic phenomena, with a focus on navigating diverse demographic data sources, particularly pertaining to India.

# KU2DSCSSE108: FOUNDATIONS OF ECONOMIC ANALYSIS

# **Course Description:**

Foundations of Economic Analysis is designed to build upon the foundational knowledge for analysing economic issues. This course delves into foundational economic concepts and theories, focusing on development economics, public finance, Economics of Banking and the specific economic dynamics of the Kerala region. Students will be able to explore theories of economic development, public finance principles, business strategies, the economic challenges and opportunities unique to Kerala. The course integrates theoretical knowledge with practical applications, case studies, and real-world examples to enhance understanding of complex economic phenomena.

# **Course Prerequisite: NIL**

# **Course Outcomes:**

| CO No. | Expected Outcome   | Learning<br>Domains |
|--------|--|---------------------|
| 1      | Gain a comprehensive understanding of development economics theories, economic growth, poverty, inequality, and human development indices. | R, U                |
| 2      | Understand government budgeting, fiscal policies, taxation principles, public expenditure and the role of government in market failures.   | R, U                |
| 3      | Gain a comprehensive understanding of the banking sector, including<br>its functions, regulatory framework, and economic impact to analyse | R, U                |

|   | the role of central banks in formulating monetary policies and managing financial stability.  |      |
|---|---|------|
| 4 | Explore economic history, key sectors, social development indicators, government policies specific to the Kerala.   | R, U |
| 5 | Understand the need for developing critical thinking, analytical skills, and the ability to apply economic theories to real-world economic scenarios and decision-making processes. | R, U |

This course is open to students from various disciplines. The course offers a comprehensive exploration of crucial issues in Indian economic development. Through engaging lectures and discussions, students will delve into fundamental concepts of economic growth and development, population dynamics, poverty, inequality, and unemployment. Emphasizing a multi-disciplinary approach, the course integrates insights from sociology, public policy, and other relevant disciplines to provide a holistic understanding of India's development challenges. By analysing real-world case studies and policy debates, students will develop critical thinking skills and gain practical insights to address complex socio-economic issues, equipping them to make informed contributions to the discourse on India's development journey.

# **Course Prerequisite: NIL**

# **Course Outcomes:**

At the end of the course, the student will be able to;

| COs  | Expected Outcomes   | Learning<br>Domains |
|------|---|---------------------|
| CO 1 | Grasp the concepts of economic growth and development, including<br>the distinctions between the two, and the common characteristics of<br>development and underdevelopment.  | R, U                |
| CO 2 | Understand the interplay between population growth and economic development, examining demographic changes, theory of demographic transition, and the potential impact of population trends on India's economic trajectory. | U                   |

| CO 3 | Understand the dimensions and causes of poverty, inequality, and<br>unemployment in India, exploring economic, structural, and social<br>factors. | R, U  |
|------|---|-------|
| CO 4 | Acquire skills in proposing effective policy solutions to address challenges related to poverty in India.   | А     |
| CO 5 | Compare development issues of third world countries with Indian economy.  | U, An |

# **Course Description**

This course provides an introduction to entrepreneurship and the start -up ecosystem, focusing on the fundamental concepts and practical skills necessary for launching and sustaining a new venture. Students will explore the definitions, characteristics, and classifications of entrepreneurship, distinguishing between entrepreneurs and intrapreneurs. The course examines the role of entrepreneurship in economic development, particularly in India, and the government's efforts in promoting entrepreneurial activities. It covers motivation theories and creativity techniques essential for fostering innovation within businesses. Additionally, students will learn how to develop comprehensive business plans, understanding their purpose, functions, and key elements. Through case studies, practical activities, and a business plan competition, students will gain hands-on experience and insights into real-world entrepreneurial challenges and successes.

# **Course Prerequisite: NIL**
